What Is Sketchworks?

Boasting "industrial strength comedy," Sketchworks was established in 2001 as greater Atlanta's original, cuttingedge sketch comedy troupe that features some of the region's top working professionals.

Unlike improvisational comedy, sketch comedy relies on short, pre-scripted live or filmed vignettes, which celebrate the writers' craft as much as the actors'.

Shows, which regularly sell out, are similar in format to that used by *Saturday Night Live*, *MadTV*, *In Living Color*, *Chappelle's Show*, *The Kids in the Hall* or *The Carol Burnette Show*.
