The Empire's latest armored battle station: Why Alderaan's no longer on your scopes.

The rebel scum have abandoned Dantooine, but where did they go? Some say Yavin-4.

A new phase in the Skywalker search: IG-88B joins bounty hunters aboard the *Executor*.

Bespin falls. Calrissian's Cloud City security capitulates to elite commando unit.

The shifting interstellar balance of power: Post Republic is Coruscant still relevant?

Combat Tactics

Up Against a Jedi?
To survive, keep your wits about you and maintain your distance.

Never engage a Jedi knight alone. Take cover immediately and await reinforcements. Jedi cannot be defeated one on one in a melee scenario.

Instead, attack en masse. Apply continuous blaster fire and thermal detonator assaults. Coordinated flanking maneuvers with overwhelming firepower may defeat them. Air and armor support are recommended. Incinerate the bodies to be sure.
